

NEW SPRING CLASS!

ART 4800-374: Visiting Artist Workshop with Jorge Bachman

Spring 2014, Fridays, 1:30-4:15pm

Multimedia and sound artist **Jorge Bachman** collects field recordings exploring the **strange, unique, and microcosmic** sounds of everyday life. In this workshop, Bachman will work both remotely and on-site **with students** to create a **media-based installation and performance** across campus. Working collaboratively, we will take advantage of students' interdisciplinary skills to create public art experiences.

Based in San Francisco, Bachman has exhibited and performed in North America, Europe, Japan, and South America. He has participated in the San Francisco Electronic Music Festival and collaborated with the MoBu Dance Group.

Work by Bachman based on the sound recordings of former OSU Art Professor Dale McKinney (1911-1994) will be installed at the Postal Plaza Gallery in downtown Stillwater, alongside McKinney's own rarely-seen kinetic sculptures.
